## ABOUT ME

Hardworking and enthusiastic University Student working towards a bachelor's degree in Computer Science. Last summer I secured an internship at Cybernetica, which later on transitioned into a permanent role.

## WORK EXPERIENCE

### Junior QA Engineer

June 2023 - July 2024 at Cybernetica AS

- Performed quality inspections using Postman, Dbeaver etc. Drafted reports to detail non-conforming material issues.
- Used Linux command line to search and locate bugs in servers.
- Documented testing procedures for developers and future testing use.
- Designed and implemented Cypress automated test scripts for web applications, using TypeScript.

### Junior Software Developer

Aug 2024 - present at Cybernetica AS

- Wrote Python code for data analysis, enabling insightful decision-making.
- Used Graphviz to visualize page linking, providing clear visual representations of data structures.
- Developed software to track Git commits across multiple projects, improving version control management.
